Let our professional team help you reach your goals with our quick loan process, 24-hour approval and funding up to \$5,000,000 in as fast as 3 days.

Features and Benefits

We have a variety of loan products for Dentists. Interest-only loans and lines of credit with affordable payment structures available and up to 100% financing on equipment loans.

A dedicated specialist will help you

gather the insights to understand your financial goals and make the right decisions.

We can help you from attracting new patients with marketing campaigns, to finding the ideal location for your next office.

Simplified qualification requirements. The qualification requirements for dental business loans have been simplified. They consist of the following criteria outlined below:

Unsecured Loans:

To meet the qualifications for an unsecured loan, dentists should have an Experian credit score of at least 620 or more, with annual gross revenues at a minimum of \$150,000 and have been in business for not less than 4 months.

We understand that setbacks occur that may have thrown you or your dental practice off course. So if you have filed for bankruptcy in the past, we can still offer funding solutions to you as long as the bankruptcy has taken place seven years ago or longer.

We offer affordable unsecured loans in the range of \$20,000 – \$500,000, with repayment terms between one (1) to five (5) years with no prepayment penalties. The interest rates are as low as 5.9% and the funding is normally provided within seven business days.

Equipment Loans:

We understand how important your dental equipment is to effectively run your practice and remain competitive. We offer equipment loans for dental practices for both new and used dental equipment. We offer flexible terms and repayment options on all of our equipment financing for dental equipment.

Small Business Loans:

We offer small business loans to dentists through either the SBA or through one of our other preferred lenders who specialize in small business loans for dental practices. We can make it easier for you by assisting you with the application process. The small business loans all have optional ranges, flexible repayment terms, and low-interest rates.

Other Types of Business Loans:

We also have other types of loans for dental practices as well. We understand the importance of having access to cash and optional funding sources. That's why we also offer loans for working capital, merchant cash advances, commercial financing, acquisition loans, asset-based loans, loans for franchises, microloans and more. We will guide you through the application process for whichever loan you apply for to make sure that you meet the lending requirements and to streamline the application process.
